

**North Yorkshire County Council  
Minerals and Waste Development Framework  
Minerals Industry Survey January 2018**

**Form 1 : Primary Minerals**

Please complete one form for each site you operate in North Yorkshire County Councils' plan area (ie North Yorkshire outside the Yorkshire Dales and North York Moors National Parks). The information from the surveys will be compiled and used to help create a robust evidence base for the emerging Minerals Core Strategy. This survey is for the calendar year of 2016.

If you have any questions or need help completing the survey please contact,

Minerals and Waste Planning Policy Team,  
Planning Services,  
North Yorkshire County Council,  
County Hall,  
Northallerton.  
DL7 8AH

E-mail : [mwdf@northyorks.gov.uk](mailto:mwdf@northyorks.gov.uk)

Telephone: 01609 533285

Please complete this form in block capitals.

This form relates to

## 1. Primary Minerals

a) Was this site active in 2017?

Yes

No

b) If not why not?

c) What is the estimated remaining life of permitted reserves (in years) at the site based on expected future rate of output?

15

d) Please complete the table below detailing mineral extraction from the site

Type of Mineral extracted	Percentage each mineral if more than one	Estimated annual production 2017 (tns)	If production for 2017 not typical, what is a typical annual figure	Estimated permitted reserves on 31-12-2017 (tns)	Main end uses of minerals
Sand for concreting					
Gravel for concreting					
Sand – undifferentiated					
Gravel – undifferentiated					
Crushed rock- Carboniferous limestone)					
Crushed rock – Magnesian limestone					
Crushed rock- Jurassic limestone					
Crushed rock - sandstone					
Building stone					
Silica sand	100	29000	30000	537737	Foundry and Equestrian Sand
Clay					
Chalk					
Coal					
Gas					

e) Are there any unconsented minerals resources immediately adjacent to the site?

Yes

No

f) If yes what is the indicative size of the resource, in tonnes?

>1mt

g) How many people are employed

On site

Haulage or other

h) On average how many vehicle movements are there a day?  
transport

Minerals transport

Other

i) What are the main market destinations for the mineral - please complete the table below detailing the approximate percentage of mineral sent to each destination.

		Percentage
Yorkshire and Humber Region	North Yorkshire	26
	South Yorkshire	29
	West Yorkshire	2
	Former Humberside	6
North East Region		2
North West Region		0
Other (please specify)	UK and Europe	35

## 2. Minerals Processing on Site

- a) Is the mineral processed on site prior to sale?      Yes       No
- b) How much of the mineral produced is subject to processing, please complete the table below.

Type of processing	Approximate percentage of minerals worked at site subject to each process	Intended main end use of processed material
Crushing and screening		
Concrete Manufacture		
Coating Plant	39	Foundry sand
Stone Cutting		
Other- please specify: Washing	61	Equestrian Sand

- c) Are any materials imported for processing?      Yes       No

d) If Yes, what material is imported?

AFS50 silica sand for coating

e) How much material is imported per annum in tonnes?

322tonnes

f) Where is the material imported from?  
(please specify Authority area or Region of origin)

Congleton, Cheshire

### 3. Additional Questions

Does the site have the potential to use non road transport modes without the need for major new infrastructure?

Yes

No

If yes please provide details.

Do you monitor CO2 emissions connected with the site?  
(both onsite activity and minerals transport)

Yes

No

If so who is the best contact for further information or where can we obtain further information from?

On site CO2 is measured, but not Transport –  
Please contact S Broad for more information

Is there any information in your responses which you wish to be kept confidential? Yes

No

If yes, please specify which information.

End of Questionnaire  
Thank you for your time
