

Publication stage Response form - Part B		
Please use a separate Part B form for each representation		
Name or Organisation :	Ryedale Liberals 8.2 Appendix 8	
<ul style="list-style-type: none"> To which part of the Minerals and Waste Joint Plan does this representation relate? 		
Paragraph No./ Site Allocation Reference No.	Policy No m17 4iii. 3846/0977/M17/LC.U.DTC	Policies Map
2. Do you consider the Minerals and Waste Joint Plan is :		
2.(1) Legally compliant	Yes	No
2.(2) Sound		
(2a) Which Element of soundness does your representation relate to? (please only mark with an x one element of soundness per response form).		
<i>Positively Prepared</i> No	<i>Justified</i>	Yes
<i>Effective</i> No	<i>Consistent with National Policy</i> No	
2 (3) Complies with the Duty to co-operate	Yes	

3. Please give details below of why you consider the Minerals and Waste Joint Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible. If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

We still believe that a baseline for background evidence must be produced before any impact that would change the baseline. As for too high an impact on a single applicant, we totally agree. To charge the cost of building a road on the first car would be excessive. Somebody worked out a better system.

4. Please set out what modification(s) you consider necessary to make the Minerals and Waste Joint Plan legally compliant or sound, having regard to the Matter you have identified at 3. above where this relates to soundness. (NB Please note that any non-compliance with the duty to cooperate is incapable of modification at examination). You will need to say why this modification will make the Minerals and Waste Joint Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

PolicyM17 4iii) This policy to read: ' Proposals for hydraulic fracturing and associated development (such as compressor plants), should be accompanied by an air quality monitoring plan, which will include adequate base line data on contaminants (those that

have been known to cause concern in other hydrocarbon developments) from an area around the site. This plan will include real time continuous monitoring, capable of capturing emission events and rates of change. It will be made available for public scrutiny. Wholly independent 'Health impact assessments' will include baseline information on possible health impacts based on concerns/evidence and updates and publication of rates of change. Water and soil quality should also have a plan for baseline and continued monitoring throughout the development's life. All of the above should include plans for monitoring after the wells are abandoned.

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage.
After this stage further submissions will be only at the request of the Inspector, based on matters and issues he/she identifies for examination.

5. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination?

Yes, I wish to participate at the oral examination

6. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

As the response does not answer our point we feel there needs to be discussion at the EiP.

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate at the oral part of the examination.

All responses received will be considered and any information provided will be made public. My consent is hereby confirmed.
