

**Access and safety**

*Our town centre is a place for everyone, and everyone needs to feel like they can use Selby with ease and comfort. Small alterations to the public realm can make a place more appealing and more comfortable, if we can find where they are needed.*

	Yes	No
Is the area easy to find your way around?		
Can you move through it without undue obstruction?		
Is this the case for all users, including those with impaired vision or mobility?		
Is it clear where cars have priority and, are pedestrian areas clearly divided from the road?		
Do you feel safe crossing roads?		

*Note any Comments here:*
