

Have you ever thought that you would like to brush up your maths and English skills? Perhaps you would like to help your children with their homework or maybe you want to improve your written presentational skills in order to progress in the workplace. We have a range of courses that will sharpen up your mathematical skills and improve your knowledge of English spelling and grammar and the good news is they are all completely free!

The following courses will be available during 2009/2010

MATHS COURSES

MOVE ON WITH MATHS

This is a 12 or 15 week course covering the practical application of mathematical skills. Students begin by brushing up the basics and then move on to more advanced skills. The aim of the course is to improve students' competence in applying mathematics to practical everyday situations. At the end of the course all students have the opportunity to sit the Level 2 National Numeracy Test, which is equivalent to GCSE in level.

MATHS WORKSHOP

The topics covered in the workshops are the same as those covered in Move on with Maths but students will study the material at their own pace. You will still be able to take the level 2 Numeracy Test but you can attend as many sessions of the workshop as you need before taking the Test.

FAST TRACK MATHS

Fast Track Maths courses cover the whole level 2 numeracy syllabus over two days with the level 2 numeracy test being taken at the end of the second day.

ENGLISH COURSES

MOVE ON WITH ENGLISH

This course covers all aspects of English usage, grammar and spelling. Students will learn to present ideas coherently in writing and will work on the skills needed to produce different types of documents. At the end of the course students will have the opportunity to sit the Level 2 National Literacy Test which is equivalent to GCSE in level.

ENGLISH WORKSHOP

The English workshops give you a chance to improve your English skills at a pace to suit you. You may want to improve your spelling, learn more about punctuation or improve your reading and writing skills. You will be able to take the National Literacy test at either level 1 or 2 but only when you feel you are ready. You may attend as many workshop sessions as you wish before taking the test.

FAST TRACK ENGLISH

Fast Track English courses cover the whole level 2 literacy syllabus over two days with the level 2 literacy test being taken at the end of the second day.

SPELL IT OUT

This is a 12 hour course dedicated to English spelling rules. Spelling is an area where many people feel that they are weak and at the end of the course you will have a firm grasp of all the common spelling rules.

ENGLISH FOR SPEAKERS OF OTHER LANGUAGES

We have a wide range of English courses for learners whose first language is not English. We run courses at five different levels and assess all learners prior to the start of a course to make sure that they are working towards the level which is right for them. If you are interested in ESOL classes please ring Margaret Blythe (☎ 01609 533941) for further information.

FREE ENGLISH AND MATHS COURSE IN THE HARROGATE AREA 09/10
