

# Executive Performance Report Appendix

**Quarter 2 2023-24**

**Report produced by Strategy and Performance**

## Appendix

### Introduction

The appendix has been organised by the five Council Plan themes: Place and Environment, Economy, Health and Wellbeing, People, and Organisation, to aid in the monitoring of the Council plan.

Being the first performance report for North Yorkshire Council, a number of the indicators collected from the former Districts and Boroughs are incomplete due to collection and data issues. In addition, not all indicators have been RAG rated for this quarter due to the lack of targets or benchmarking information at a NYC level. Work is ongoing to rectify these issues.

<b>Contents</b>	<b>Page</b>
Place and Environment .....	3
Economy .....	15
Health and Wellbeing .....	20
People .....	29
Organisation .....	42

**RAG** – An indication of the level of performance an indicator is currently achieving in relation to a set target or national benchmarking level for that indicator. While the RAG rating is linked to the two “Improvement since last” markers, it is a standalone measure, measured by performance to either the target or benchmarking.

**“Improvement since last”** – Current direction of travel when compared to the last annual or quarterly figures. This is a measure of how the indicator is moving over two periods – Annual and Quarterly.

### Key

	Direction of travel is positive compared to the year-end or last quarter figures		Direction of Travel is negative compared to the year-end or last quarter figures
	Performance is static to last year’s outturn or last quarter’s figures	<b>N/A</b>	Data either at a yearly or quarterly level not available

## Place and Environment

- A clean, environmentally sustainable, and attractive place to live, work and visit
- A well connected and planned place with good transport links and digital connectivity
- Communities are supported and work together to improve their local area
- Good quality, affordable and sustainable housing that meets the needs of our communities

Primary indicators	Latest data/ figures	RAG status	Bench-marking data	Comments	Improvement since last:	
					Quarter	Year
EN1 Total greenhouse gas emissions in North Yorkshire	6,391.59 Kt CO <sub>2</sub> e	For information only		<p><b>This indicator is updated on an annual basis. Next update is June 2024.</b></p> <p>This indicator covers territorial emissions of CO<sub>2</sub>, CH<sub>4</sub> and N<sub>2</sub>O.</p> <p>The UK local authority and regional greenhouse gas emission statistics for 2021 state North Yorkshire produced 6,391.59 kilotons of CO<sub>2</sub>e. These figures are from the National Atmospheric Emissions Inventory. North Yorkshire's 2021 CO<sub>2</sub>e emissions represent a 25.3% decrease in emissions since 2005. Reported 2021 emissions for North Yorkshire are higher than 2020 by +9.1%. Due to the impact of Covid-19, this increase most likely indicates the rebound effects of reopening across the economy.</p>	N/A	N/A
EN2 Residual household waste per household (Kg/ household)	Q1 23/24 = 140.27kg Q4 22/23= 133.46kg		Q1 22/23 = 136.08kg	<p>Reported one quarter in arrears due to national reporting arrangements- reported to Waste Data Flow (Defra).</p> <p>The outturn in Q1 2023/24 was 140.27kg.</p> <p>Residual waste tonnages have increased slightly compared to Q1 22/23. There have been some changes to reporting, as some household waste (street sweepings) was previously being reported as non-household waste. RAG rated amber due to increase tonnage, which is within 5% of same quarter last year.</p>		
EN3 % of Household waste recycled/ sent for reuse, recycling or composting	Q1 23/24 = 46.9% Q4 22/23 = 36.8%		Q1 22/23 = 47.8%	<p>Reported one quarter in arrears due to national reporting arrangements- reported to Waste Data Flow (Defra).</p> <p>The outturn for Q1 2023/24 was 46.9%.</p> <p>This is the first quarter of data reported to Waste Data Flow (Defra) as North Yorkshire Council. Composting tonnages have increased compared to Q1 22/23. However, recycling tonnages have decreased. RAG rating amber because performance is slightly less than the same quarter last year, but this may be a function of the more consistent approach to reporting now we are Unitary.</p>		
EN4 % of waste arising to landfill	Q1 23/24 = 8%		Q1 22/23 = 9.4%	<p>Reported one quarter in arrears due to national reporting arrangements- reported to Waste Data Flow (Defra).</p> <p>The outturn for North Yorkshire in Q1 2023/24 was 8%.</p> <p>RAG rated Green because less waste sent to landfill than the same quarter last year (9.4%). Waste was diverted from Allerton Waste Recovery Park in May and June, with some tonnage being delivered to landfill. This was due to a planned shutdown in June and some tonnage diverted in May due to technical issues with the plant.</p>		

Primary indicators	Latest data/ figures	RAG status	Bench-marking data	Comments	Improvement since last:	
					Quarter	Year
EN5 Number of fly tipping incidents reported per quarter	2023/24 Q1: 719 incidents  Q2: 770 incidents		Q2 21/22 = 743 Q2 22/23 = 795	A total of 770 fly-tipping incidents were reported across North Yorkshire in Q2. Over half of these were reported in the Scarborough and Harrogate areas (306 and 139 respectively).  The cost to the Council for clean-up was £46,750 in Q1 and £35,740 in Q2. The figures are based on Defra and Waste Data Flow use for the national stats on Fly Tipping.  RAG rating AMBER because whilst this is a reduction compared to the same period last year (795), it is an increase on the previous quarter (719). In addition, the clean costs fell by £11,000 from Q1 to Q2.		
EN6 Parking Penalty: charge notices (PCN)	Scarborough region: <b>10301 Q1 data</b>  Harrogate region: <b>7815 Q1 data</b>		Historic data not yet available	Parking management, collection and enforcement is currently split into two management regions. The former districts of Scarborough, Hambleton, Ryedale and Richmondshire in one while Harrogate, Craven and Selby make up the other. The two figures are the number of parking penalty notices for each region.  There is no historic date for this measure. Work is in progress to correct this along with an additional measure for the pay and display ticket information. It is expected that this should be available in Q3. This indicator is updated quarterly and is one quarter in arrears.	N/A	N/A
EN7 National Highways Transportation Survey: satisfaction with the condition of highways	33.4 (2016 – 3rd quartile) 36.7 (2017 – 2nd quartile) 30 (2018 – 2 <sup>nd</sup> quartile) 34 (2019 – 2 <sup>nd</sup> quartile) 36 (2020 – 2 <sup>nd</sup> quartile) 32 (2021 – 2 <sup>nd</sup> Quartile) 34 (2022 – 2 <sup>nd</sup> Quartile)		The score of 34 places us 9 <sup>th</sup> out of the 32 similar county council and large unitary authorities.	The 2023/24 survey takes place in summer 2023. The results will be available in Q3 23/24.	N/A

Primary indicators	Latest data/ figures	RAG status	Bench-marking data	Comments	Improvement since last:	
					Quarter	Year
EN10 % of lesser used roads where maintenance should be considered	16% (2016/18 survey) 18% (2017/19 survey) 17% (2018/20 survey) 15% (2020/21 survey) 14% (2021/22 survey) 12% (2022/23 survey)		Local indicator and not directly comparable. For unclassified roads in 2021/21 (RDC0130), the overall figure for England is 15% however of the 151 expected data returns only 89 have been received at present..	<b>This indicator is updated annually.</b> <b>RAG rated green because it is an improvement on the previous year.</b>	N/A	
EN11 Number of people killed or seriously injured on the roads, (NY only, calendar year)	448 (2012-2016 ave) 431 (2014) 429 (2015) 431 (2016) 412 (2017) 361 (2018) 335 (2019) 247 (2020) 266 (2021) 233 (2022)		Data from Public Health England for KSI during the period 2016-2018 places NY at 65.9 KSI per 100,000 population, against a Y&H figure of 49.1, and an England figure of 42.6  Further data from the government's Reported Road Casualties in Great Britain report has North Yorkshire going from the 6 <sup>th</sup> highest in 2012 to 22 <sup>nd</sup> in 2020.  All road safety data is measured using a calendar year.	Nationally there are no targets for Road Safety; therefore the York and North Yorkshire Road Safety Partnership monitors against a 5 year baseline average.  The 2022 calendar year saw a drop in the overall KSI figures (233) after a slight increase in 2021 (266). Although that was in comparison with the 2020 data, the majority of which was collected in lockdown conditions.  With the 2022 reduction, the overall trend is still downwards.  <b>This indicator is updated annually.</b> <b>RAG rated green because the number of KSI has fallen against the five year average.</b>	N/A	

Primary indicators	Latest data/ figures	RAG status	Bench-marking data	Comments	Improvement since last:	
					Quarter	Year
EN12 Public Rights of Way Network condition (PRoW): % of network passable	23/24 Q1 90.55% 22/23 Q4 90.57% 22/23 Q3 90.02% 22/23 Q2 89.91% 22/23 Q1 90.18% 2022/23 average 90.17% 2021/22 average 89.67%		Local measure – no comparable data available.	<b>This indicator is updated on a quarterly basis. RAG rated green because the figure remains consistent across 2021/22 and 2022/23.</b>		
CD1 % Major planning applications within statutory or extension of time	Q2 23/24 – 82.5% (provisional*) Q1 23/24 81.40%		Q1 23/24 figure for England – 89% (there is a lag between data being published nationally.	There were a total of 57 major planning decisions made across NYC in the period, 47 of which were made with the statutory period or EoT.  Whilst the statutory performance of 60.00% has been met, the County figure is slightly below the national % for the last available quarter. As the indicator is improving, it has been RAG rated green  This indicator relates to a requirement under section 62A of the Town & Country Planning Act 1990 that LPAs making 60% or fewer of decisions on time, are at risk of being designated by Central Government as being subject to “Special Measures” to improve their performance. Our figure means that we are currently not at risk  *Data is missing from one locality		N/A
CD2 % Minor planning applications within statutory or extension of time	Q2 23/24 – 86.1% (provisional*) Q1 23/24 81.88%		Q1 23/24 figure for England – 84% (there is a lag between data being published nationally.	There were a total of 382 minor planning decisions made across NYC in the period, 329 of which were made with the statutory period or EoT.  Whilst the statutory performance of 70.00% has been met, the county figure is better than the national % for the last available quarter so it is rated green.  This indicator relates to a requirement under section 62A of the Town & Country Planning Act 1990 that LPAs making 70% or fewer of decisions on time, are at risk of being designated by Central Government as being subject to “Special Measures” to improve their performance. Our figure means that we are currently not at risk  *Data is missing from one locality		N/A
CD3 % Other planning applications within statutory or extension of time	Q2 23/24 – 87.4% (provisional*) Q1 23/24 90.08%		Q1 23/24 figure for England – 89% (there is a lag between data being published nationally.	There were a total of 822 other planning decisions made across NYC in the period, 718 of which were made with the statutory period or EoT.  The statutory performance of 70.00% has been met, and the PI is performing close to the national % for the last available quarter so it is rated green.  This indicator relates to a requirement under section 62A of the Town & Country Planning Act 1990 that LPAs making 70% or fewer of decisions on time, are at risk of being designated by Central Government as being subject to “Special Measures” to improve their performance. Our figure means that we are currently not at risk  *Data is missing from one locality		N/A

					Quarter	Year
CD4 County matter planning applications determined within 13/ 16-week timescales or within agreed extension of time 2- year rolling measure	<b>Q2 23/24 – 83.7%</b> <b>Q1 23/24 78%</b> Q4 81.1% Q3 80.5% Q2 84% Q1 87% Q4 90.6% Q3 90.5% Q2 89.7% Q1 90% Q4 89.5% Q3 100% Q2 93% Q1 89.7%		According to data from LG Inform, the England figure is 90% across the two year period from 01/04/21 to 31/03/2023 (Source: Department for Levelling Up, Housing and Communities), Table P151b. NB: 3-month time lag on national data*	The percentage of minerals & waste applications determined within 13/16 weeks or within an agreed extension of time (two year rolling measure) is 83.7%. This covers Q2 21/22 to Q2 23/24. There were 37 minerals & waste applications over the past 2 years, 31 of which were completed within permitted timeframes. In quarter 2 23/24 there were 4 minerals & waste applications both of which were determined within permitted timescales meaning 100% was achieved.  This indicator relates to a requirement under section 62A of the Town & Country Planning Act 1990 that LPAs making 60% or fewer of decisions on time, are at risk of being designated by Central Government as being subject to “Special Measures” in order to improve their performance. Our figure means that we are currently not at risk  Although the trend is down performance is well above the statutory target of 60% and the figure is improving, this PI is rated green.		
CD5 Decisions on applications for major developments made during the previous 2 years that are overturned at appeal				Performance Indicator not available for Q1 and Q2 for North Yorkshire as most decisions made that are overturned will have been made by former district and borough councils.	N/A	N/A
CD6 Decisions on applications for minor developments made during the previous 2 years that are overturned at appeal				Performance Indicator not available for Q1 and Q2 for North Yorkshire as most decisions made that are overturned will have been made by former district and borough councils. <p>CD8</p> <p>Housing affordability: Ratio of median house price to median gross annual (where available) residence-based earnings</p> <p>Source: ONS ratio of median house price median gross residents-based earnings. Table 1c, 3c, 5c</p>	<p>NY</p> <p>8.09</p>	<p>County wide economic indicators</p>	<p>In 2022 the median house price in North Yorkshire was £248,000, compared to £275,000 for England.</p> <p>The range for house prices in NY is £185,000 in Scarborough to £300,000 in Harrogate.</p> <p>The median wages in 2022 were £30,907 in NY compared to £33,208 for England.</p> <p>The range for earning in NY varies from £26,923 in Ryedale to £33,153 in Harrogate.</p> <p>Based on the above figures, Scarborough remains the most affordable area in North Yorkshire to buy a house, whilst Ryedale is the least affordable</p>	<p><b>This indicator is updated on an annual basis. Data next released in March 2024.</b></p> <p><b>Not Rag rated because this indicator is for information only. This is market data intelligence and not a reflection on the council performance.</b></p> <p>Average house prices fell in 2022, whilst wages increased making housing more affordable in 2022 than the previous year.</p> <p>Affordability ratios are calculated by dividing house prices by gross annual earnings, based on the median quartiles of both house prices and earnings. A higher figure means the housing is less affordable in that area. For example, a figure of 9 means a resident would 9 x their annual salary to buy a house in that area, (based on median salary and median house prices).</p> <table border="1"> <thead> <tr> <th></th> <th>2020</th> <th>2021</th> <th>2022</th> </tr> </thead> <tbody> <tr> <td>Craven</td> <td>8.35</td> <td>8.94</td> <td>8.29</td> </tr> <tr> <td>Hambleton</td> <td>7.82</td> <td>9.48</td> <td>8.26</td> </tr> <tr> <td>Harrogate</td> <td>8.57</td> <td>9.32</td> <td>9.28</td> </tr> <tr> <td>Richmondshire</td> <td>7.99</td> <td>9.14</td> <td>7.82</td> </tr> <tr> <td>Ryedale</td> <td>8.55</td> <td>9.32</td> <td>10.21</td> </tr> <tr> <td>Scarborough</td> <td>5.98</td> <td>6.46</td> <td>5.59</td> </tr> <tr> <td>Selby</td> <td>5.72</td> <td>6.66</td> <td>7.24</td> </tr> <tr> <td>North Yorkshire</td> <td>7.2</td> <td>8.18</td> <td>8.09</td> </tr> <tr> <td>Yorks &amp; Humber</td> <td>5.66</td> <td>6.39</td> <td>6.07</td> </tr> <tr> <td>England</td> <td>7.61</td> <td>8.9</td> <td>8.28</td> </tr> </tbody> </table>		2020	2021	2022	Craven	8.35	8.94	8.29	Hambleton	7.82	9.48	8.26	Harrogate	8.57	9.32	9.28	Richmondshire	7.99	9.14	7.82	Ryedale	8.55	9.32	10.21	Scarborough	5.98	6.46	5.59	Selby	5.72	6.66	7.24	North Yorkshire	7.2	8.18	8.09	Yorks & Humber	5.66	6.39	6.07	England	7.61	8.9	8.28	<p>N/A</p>

CD11 Number of long- term empty homes	3,257 Q2		2021: 2,832 2022: 3,144	<table border="1"> <thead> <tr> <th>2021</th> <th>2022</th> <th>Q1</th> <th>Q2</th> </tr> </thead> <tbody> <tr> <td>2,832</td> <td>3,144</td> <td>3,757</td> <td>3,257</td> </tr> </tbody> </table> <p>North Yorkshire has 299,138 dwellings, of which 1.09% are long-term empty. (Census 2021) For a property to be classed as 'long-term empty' it needs to be empty for at least 6 months. There can be a number of reasons for properties to remain empty for such a period of time, ranging from requiring significant improvement works to issues concerning the occupants moving into other residential settings. Over the two preceding years the number of empty homes has increased across the county; this is in line with national trends; which have seen the number of long-term empty properties stand at the highest level since 2011 (excluding pandemic years). During Q2 there has been a significant effort from the Local Taxation Service to update records and contact owners across the county, which this has led to a significant reduction in the number flagged as empty. <b>RAG rated amber as comparable with other local authorities. Single-tier and county neighbours average 1.24% for 2022.</b></p>	2021	2022	Q1	Q2	2,832	3,144	3,757	3,257

The index was higher in winter 2020/21 compared with the previous year, but this is a volatile indicator, dependent on many factors such as weather and flu viruses.</p> <p><b>Data as currently shown on Public Health Profiles – Fingertips</b></p>	N/A	
CD33 Number of visits to leisure centres	Q2 23/24 - 218,301 (provisional) Q1 23/24 – 262,211 (Provisional)		n/a	<p>This figure shows the number of people participating in an activity at leisure sites in North Yorkshire. Please note that this is an incomplete figure. For both Q1 and Q2, not all leisure providers have submitted data. The figure for Q1 is higher because fewer leisure providers have reported in Q2. Across individual providers that have provided data for Q2, visits have increased.</p> <p>Please note that each leisure provider (and sometimes different sites) have different methods for what counts as a visit.</p> <p>This indicator is not RAG rated because there are no meaningful public benchmarks. The service is looking to adopt DataHub as a benchmarking tool, which will move away from attendance towards social value, financial performance and health outcomes. It will also give the ability for individual sites to benchmark against similar sites and operating models.</p>	N/A	N/A
CD33a Number of people participating in public/casual swimming sessions	Q2 23/24 158,832 Q1 23/24 139,097			<p>This figure shows the number of people participating in swimming at all council owned pools and includes figures from all operators. .</p> <p>There was an increase in the number of swims in North Yorkshire from Q1 to Q2. This was primarily driven by the re-opening of the new Harrogate Wellness &amp; Leisure Centre. There were also 8,783 swimming lessons in Q1 and 8870 in Q2.</p>	N/A	N/A
CD33b No of people attending swimming lessons	Q2 23/24 8870 Q1 23/24 8793			<p>This indicator is not currently RAG rated. This is the first year that all sites have reported in this way (previously performance was reported at District level) so there is no previous benchmark.</p> <p>The service is exploring the use of national benchmarking information and this will be reflected in future reports.</p>	N/A	N/A
CD34 Number of memberships at combined leisure centres	Q2 23/24 – 22,732 (provisional) Q1 23/24 – 20,634		n/a	<p>The number of memberships at leisure centres for health &amp; fitness (includes well being membership and swim only membership where these are available and sold separately). .</p> <p>The increase in the number of memberships from Q1 to Q2 was primarily driven by the re-opening of the new Harrogate Wellness &amp; Leisure Centre.</p> <p>This indicator is not RAG rated as above.</p>	N/A	N/A

					Quarter	Year
HAS5 % of reablement clients not receiving a subsequent package of social care support within 91 days	72.5% Q2 2023/24 68.8% Q1 2023/24		Bench-marking n/a 71.7% Q2 2022/23	This indicator is updated quarterly. Ranked as RAG amber in Q2 as performance showed improvement between quarters and year on year. Performance has move closer to, but remains below the 75% target Reablement activity continues to run at significantly reduced levels as it recovers from having significant capacity diverted to support the wider care market. Consequently, the impact of this improved performance remains limited to a smaller cohort of beneficiaries.		
HAS6 Reablement packages delivered per 10,000 of adult population (Cumulative over the year)	8.7 Q2 2023/24 7.2 Q1 2023/24		Bench-marking n/a 7.0 Q2 2022/23	This indicator is updated quarterly. Ranked as RAG amber in Q2 as performance showed an improvement between quarters and year on year. The number of reablement interventions started in the first half of 2023/24 was up 18% year on year, reflecting the sustained reduction in the proportion of reablement team capacity being used to cover domiciliary care needs around the county. Despite these improvements there is still a challenging improvement trajectory to return to pre-Covid levels of activity and impact.		
HAS7 Clients receiving long term support for 12+ months who have received an annual review the last 12 months	58.7% Q2 2023/24 57.8% Q1 2023/24		Nat: 55% YHR: 48% (2021/22 full year) 59.7% Q2 2022/23	This indicator is updated quarterly. Ranked as RAG amber in Q2 as performance improved between quarters and remains better than the most recent comparator averages. Local performance remains 1% down year on year and below target (60%) A review of the working arrangements for the countywide Review Team is being scoped as the team's progress on revie completions has been impeded by the wider case management demands of the cases they have taken over from locality teams.		
HAS8 % of people receiving long term support who are in a community-based setting	68.4% Q2 2023/24 68.4% Q1 2023/24		Bench-marking n/a 67.8% Q1 2022/23	This indicator is updated quarterly. Ranked as RAG green as performance in Q2 was unchanged but shows improvement year on year and remains above target (68%). This is an overarching KPI for the directorate's improvement work in 2023/24		
HAS9 Direct payments per 100,000 of population	157.3 Q2 2023/24 153.9 Q1 2023/24		Bench-marking n/a 144.0 Q1 2022/23	This indicator is updated quarterly. Ranked as RAG amber as performance in Q2 shows improvement both between quarters and years, but remains below target (160) North Yorkshire consistently compares poorly with other local authorities in national data sets.		
HAS10 Average weekly cost for new admissions to residential and nursing beds for older people (65+)	£1076 Q2 2023/24 £1071 Q1 2023/24		Bench-marking n/a £1073 Q2 2022/23	This indicator is updated quarterly. Ranked as RAG red in Q2 as the average cost remains above the approved provider rates.

HAS 14 % of safeguarding concerns progressing to informal/ formal discussions	18.0% Q2 2023/24 18.7% Q1 2023/24 19.1% Q4 2022/23		Bench-marking n/a 19.7% Q2 2023/23 18.7% Q1 2023/24 18.0% Q2 2023/24	This indicator is updated quarterly. Ranked as RAG green in Q2 as performance improved between quarters and year on year. Performance was consistently around 20% pre-pandemic.		
HAS15 DoLS				New indicator to be defined for the deprivation of liberty safeguards (DoLS) activity. The Government announced on 5th April 2023 that the implementation of the Liberty Protection Safeguards (LPS) would be delayed "beyond the life of this Parliament." LPS is due to replace DoLS and will bring a new performance framework but it has, and continues to be long-delayed.		
HAS16 Rate of safeguarding concerns per 100,000 population	339.0 Q2 2023/24 339.6 Q1 2023/24 305.0 Q4 2022/23		Nat: 1,218 (2021/22 full year) 207.2  Q2 – 23/24 – figures not yet issued by NHS Digital for National rates	This indicator is updated quarterly. Ranked as RAG amber in Q2. Activity shows a continuation of the upward trend started in Q3 2022/23. The deep dive detailed in the main body of the report indicates that this is due to increased reporting rather than an increase in safeguarding incidents. It is proposed that the performance measure is changed to report on safeguarding adults referrals, which is a more accurate reflection of safeguarding incidents. Benchmarking data included in the main body indicates that North Yorkshire sits mid performance range amongst authorities in the region.		

## Organisation

Good quality, value for money services that are customer focused and accessible to all

A carbon neutral council

A well-led and managed, financially sustainable, and forward-thinking council

A diverse and inclusive council, where employees are supported and valued

Primary indicators	Latest data/ figures	RAG status	Bench-marking data	Comments	Improvement since last:	
					Quarter	Year
RE1 % Council Tax collected	Q2 58.56%		Q2 2022/23 across North Yorkshire - 58.96%	The council tax collection rate for <b>Q2 2023/24</b> stands at 58.56%. Performance is slightly lower than the Q2 target of 59% but is considered to be within an acceptable tolerance level, hence the green RAG rating.	N/A	N/A
RE2 % Council Housing rent and arrears collected	Q2 98.09%		N/A	The Council housing rent and arrears collection rate for Q2 2023/24 stands at 98.09%. Whilst this is an improvement on Q1 performance of 90.86%, Q1 data did not include Harrogate data, and therefore it is not applicable to rate performance against the previous quarter. We are still looking at the consolidation of the data and how the information is being used in order to provide a definitive position; we are starting to get a better grip on the cycles of payments and will be linking in with Housemark to undertake ongoing monthly benchmarking around arrears recovery to better understand the authority's performance.	N/A	N/A
RE3 % Non-domestic rate collected	Q2 59.41%		Q2 2022/23 across North Yorkshire – 59.80%	The NDR collection rate for Q2 2023/24 stands at 59.41%. Performance is slightly lower than the Q2 target of 60%. The RAG rating is green because whilst performance is slightly lower than the Q2 target, it is within acceptable tolerance levels.	N/A	N/A
RE4 Time to process new Council Tax Support claims (days)	Q2 18.52 Days		N/A	Overall performance across North Yorkshire is 18.52 days. This is an improvement of 3.28 days on the Q1 figure. The Q2 averages last year for all North Yorkshire district and borough councils was 18.59 days. The RAG rating is Amber because whilst performance has improved compared to the previous quarter, it is below than the annual target of 18 days.		
RE5 Time to process new Housing Benefit claims (days)	Q2 19.25 Days		The DWP-reported figure for all England for the same period last year was 20.4 days.	Overall performance across North Yorkshire is 19.25 days. This is an improvement of 3.87 days compared to Q1. The Q2 average for the same period last year for all North Yorkshire district and borough Councils was 18.19 days. RAG rated Green because performance has improved compared to the previous quarter and meets the annual target of 20 days		
RE6 Time to process Council Tax Support changes in circumstances (days)	Q2 4.76 days		N/A	Overall performance across North Yorkshire is 4.76 days. This is an improvement of 1.57 days on the Q1 figure. The Q2 average for the same period last year for all the North Yorkshire district and borough Councils was 4.77 days. The RAG rating is Green because performance has improved compared to the previous quarter and meets close to the annual target of 5 days.		
RE7 Time to process Housing Benefit changes in circumstances (days)	Q2 5.46 days		The DWP-reported figure for all England for the same period last year was 9.2 days	Overall performance across North Yorkshire is 5.46 days. This is an improvement of 1.16 days compared to Q1. The Q2 average for the same period last year for all North Yorkshire district and borough Councils was 4.77 days. The RAG rating is Amber because whilst performance has improved compared to the previous quarter, it is below the annual target of 3 days.

RE14 Procurement: % of total council spend with local suppliers	Q1 23/24 51% Q2 23/24 50%			Q2 Actual 50% against a target of 50% A slight reduction of 1% Rag rating remains Green		N/A
RE15 Procurement: % of total council spend with SME suppliers	Q1 23/24 41% Q2 23/24 43%			Q2 Actual 43% against a target of 50% Rag rated Amber Due to the migration of data from the ex-borough and districts there is a large number of suppliers that require categorising by local, SME and VCSE		N/A
RE16 Procurement: % of total council spend with the voluntary and community sector	Q1 23/24 3% Q1 23/24 3%			New figures for NYC Actual 3% against a target of 3% Rag rated Green as matching target		N/A

Primary indicators	Latest data/ figures	RAG status	Bench-marking data	Comments	Improvement since last:	
					Quarter	Year
RE17 % of customers rated the procurement service they received 'fully meets expectation' or above	Q1 23/24 100%  Q2 23/24 100%			Overall, the Procurement & Contract Management Team service is meeting the customer satisfaction ratings based on surveys with internal stakeholders. Currently, the number of survey's being completed is quite low and therefore opportunities to improve feedback will be investigated  Rag rated Green as matching target		N/A
HR1 Number of days lost to staff absence (sickness absence) per FTE	Q2 2.65 days lost per FTE (NYC only – excluding schools). Q2 2.13 days lost per FTE (full workforce) Q1 3.05 days lost per FTE (NYC only – excluding schools). Q1 2.77 days lost per FTE (full workforce)		10.0 days lost annually per FTE all English authorities 11.7 days lost annually per FTE county and single tier councils LGA workforce survey equivalent full year based on Q3 22/23 report.	Excluding schools, the Q2 figure is down from a very high Q1 23/24 (3.05), but up on Q2 22/23 (2.07). The Q2 full workforce figure (including schools) is down on last quarter (2.77), but up on Q2 22/23 (1.81). The rolling full year sickness absence is 10.89 days per FTE, an increase on the previous rolling figure of 10.31 days per FTE, and on the 22-23 full year figure of 9.31 days. The Council's sickness absence rates are the highest since recent records dating back to 2010, with noticeable increases in the last 2 years. While there is some lag in data available from both the Office for National Statistics (ONS) and Local Government (LGA) this does reflect a national trend. A national HR study reported a 45% increase in sickness absence since 2019, of which 30% increased between the years 2021 and 2022. ONS have noted a 44% increase in sickness absence between 2020 and 2022, and highest sickness absence levels since 2004. The Council's HR Shared Service Team offer targeted training and support for managers of teams with high sickness absence.  Rag rated red because the rolling full year sickness absence is 10.31 days per FTE, an increase on the previous rolling figure of 9.31 days per FTE		
HR2 Staff turnover rate	Q2 Leavers – NYC staff only (excluding schools) 281 (2.79). Q1 Leavers – NYC staff only (excluding schools) 301 (2.99%).		15.1% annually for all English authorities 14.6% annually for county and single tier councils LGA workforce survey equivalent full year based on Q3 22/23 report	This figure has decreased from Q1 23/24 (301, 2.99%) and Q2 22/23 (331, 4.61%). Involuntary leavers are 19, just 1 higher than Q1.  The rolling full year turnover figure is 12.69%, a decrease from the previous rolling full year figure of 14.51%, and now back within the 'normal' 10-13% range. This is also below the annual average for all English authorities.  The labour market remains very competitive nationally and locally, with typically 6 applicants per vacancy down from 9 in 2019.  Rag rated amber because the rolling full year turnover figure is 12.69%, a decrease from the previous rolling full year figure of 15.07%. This is also below the annual average for all English authorities.		
HR3 Spend on agency staff	Q2 - £1,727,034 (excluding schools) Q1 23/24 £1,725,903 (excluding schools)		Average annual spend estimated for comparable regional authorities is c£11.5m.	Total spend (excluding schools) is unchanged this quarter on Q1 23/24 (£1,725,903). It is higher than Q2 22/23 (£1,430,348) which reflected spend for NYCC only.  Nearly £½ million (£490k) of this spend is from former District and Borough council services with previous county council spend accounting for just over £1.2m.  Rag rated red because the total spend has not changed this quarter, compared to Q1 23/24

HR9 Gender pay gap (NYC)	<b>March 2022 (reported in March 2023)</b>  Mean gender pay gap 9.8% (11.6%)  Median gender pay gap 11.7% (16.3%)			<p><b>New RAG not rated</b></p> <p><b>Proportion of men and women in each quartile of the pay structure</b></p> <p>The high-level figures show a positive trend: the mean GPG is down from 11.6% to 9.8% and the median is down from 16.3% to 11.7%. The proportion of women in the upper quartile (which covers Grade K and above) has dropped slightly from 68.2% to 67.6%, to the level it was in the previous year. But the % of women in the lowest quartile has dropped significantly from 79% to 73.6%, representing a significant drop in the proportion of women in the lowest paid roles.</p> <p>It is difficult to compare like with like since 2019 with a combination of factors impacting on the figures which have little relevance for measuring progress in gender pay equality. There has been Covid and high numbers of furloughed employees, additional care resources to deal with Covid, labour market turmoil, high turnover in lower paid roles, facilities contracts won and lost, and bottom loaded pay awards. There has been no steady state to enable comparison between years.</p> <table border="1"> <thead> <tr> <th></th> <th>Men %</th> <th>Women %</th> <th>£/hr</th> <th>Band</th> </tr> </thead> <tbody> <tr> <td>Upper quartile</td> <td>32.4</td> <td>67.6</td> <td>£17.36+</td> <td>K+</td> </tr> <tr> <td>Upper mid Q</td> <td>19.2</td> <td>80.8</td> <td>£13.18 - £17.36</td> <td>H - J</td> </tr> <tr> <td>Lower mid Q</td> <td>17.9</td> <td>82.1</td> <td>£10.45 - £13.18</td> <td>E - G</td> </tr> <tr> <td>Lower quartile</td> <td>26.4</td> <td>73.6</td> <td>Apprentice - £10.45</td> <td>A - D</td> </tr> </tbody> </table>		Men %	Women %	£/hr	Band	Upper quartile	32.4	67.6	£17.36+	K+	Upper mid Q	19.2	80.8	£13.18 - £17.36	H - J	Lower mid Q	17.9	82.1	£10.45 - £13.18	E - G	Lower quartile	26.4	73.6	Apprentice - £10.45	A - D

					Quarter	Year
CD36 Libraries: active users per 1000 population (Cumulative figure)	Q2 23/24 - 91 Q1 23/24 - 59.6 Q4 22/23 - 118 Q3 22/23 - 101.9 Q2 22/23 - 86.2 Q1 22/23 - 56.4		No external bench-marking available	This indicator is updated as of Q2 23/24. There were 56,325 active users as of Q2 The figure for this quarter (91) is better than the same quarter for the previous years (86.2 active users per 1,000), so this is RAG rated green.	N/A	
CD37 Libraries: physical visits to libraries per 1000 population	Q2 23/24 - 789.6 Q1 23/24 - 707.7 Q4 22/23 - 657.5 Q3 22/23 - 657.3 Q2 22/23 - 723.9 Q1 22/23 - 575.4		No external bench-marking available	This indicator is updated as of Q2 23/24. There were 488,622 physical visits in Q2 The figure for this quarter (789.6 physical visits per 1000 people) is significantly higher than this quarter the previous year. It is also showing an improvement on the previous quarter. This PI is RAG rated green because of the improvement.		
CD38 Libraries: virtual visits to Libraries per 1000 population	Q2 23/24 - 961.5 Q1 23/24 - 752.4 Q4 22/23 - 565.3 Q3 22/23 - 600.9 Q2 22/23 - 640 Q1 22/23 - 529.5		No external bench-marking available	This indicator is updated as of Q2 23/24. There were 595,036 virtual visits in Q2, this includes both pages viewed and the number of library app launches. For Q2, there is an element of estimation due to changes in Google Analytics). The figure for this quarter (961.5 virtual visits per 1000 people) is significantly higher than the same quarter for the previous year (640). Virtual visits to libraries has outpaced physical visits. This PI is RAG rated green.		
CD39 Libraries: assisted IT sessions	Q2 23/24 - 4376 Q1 23/24 - 3211 Q4 22/23 - 4543 Q3 22/23 - 3482 Q2 22/23 - 4338 Q1 22/23 - 2262		No bench-marking available	This indicator is updated as of Q2 23/24. This is across 33,198 number of IT sessions and is made up of 27,323 hours across Libraries IT facilities. This quarter's figure (4,376 assisted IT sessions) is an increase on the previous quarter (4,543), however it is broadly similar to the same quarter last year.
