Background

Within each local authority area, legislation requires councils to carry out reviews of the Polling Districts and Polling Places in that area.

The North Yorkshire Council area is divided into polling districts, with one or more polling districts making up a division, and with a polling place being an area or building within a polling district in which a polling station is situated.

The last full statutory review was held in 2023 and was the first for North Yorkshire Council area. The Electoral Registration & Administration Act 2013 governs the timings of compulsory reviews. The next compulsory review is due to commence in the 16 month period beginning on 1 October 2028. A council can conduct a review at any time, but it will still have to conduct a full review during the compulsory timeframe.

This is an interim review taking into consideration the Community Governance Review for unparished areas of Harrogate and Scarborough – including boundary anomalies relating to the parishes of Eastfield, Newby and Scalby and Osgodby. It is also reviewing the designated polling stations where the existing venue is no longer available or suitable to act as a polling station. This review effects only 25 divisions of North Yorkshire Council's 89, and 62 polling districts and 49 polling stations.

This document has been distributed to local community groups, action groups, disability groups, charities, political parties, Division Councillors and Parish Councils. The (Acting Returning Officer has also been consulted and has given his recommendations.

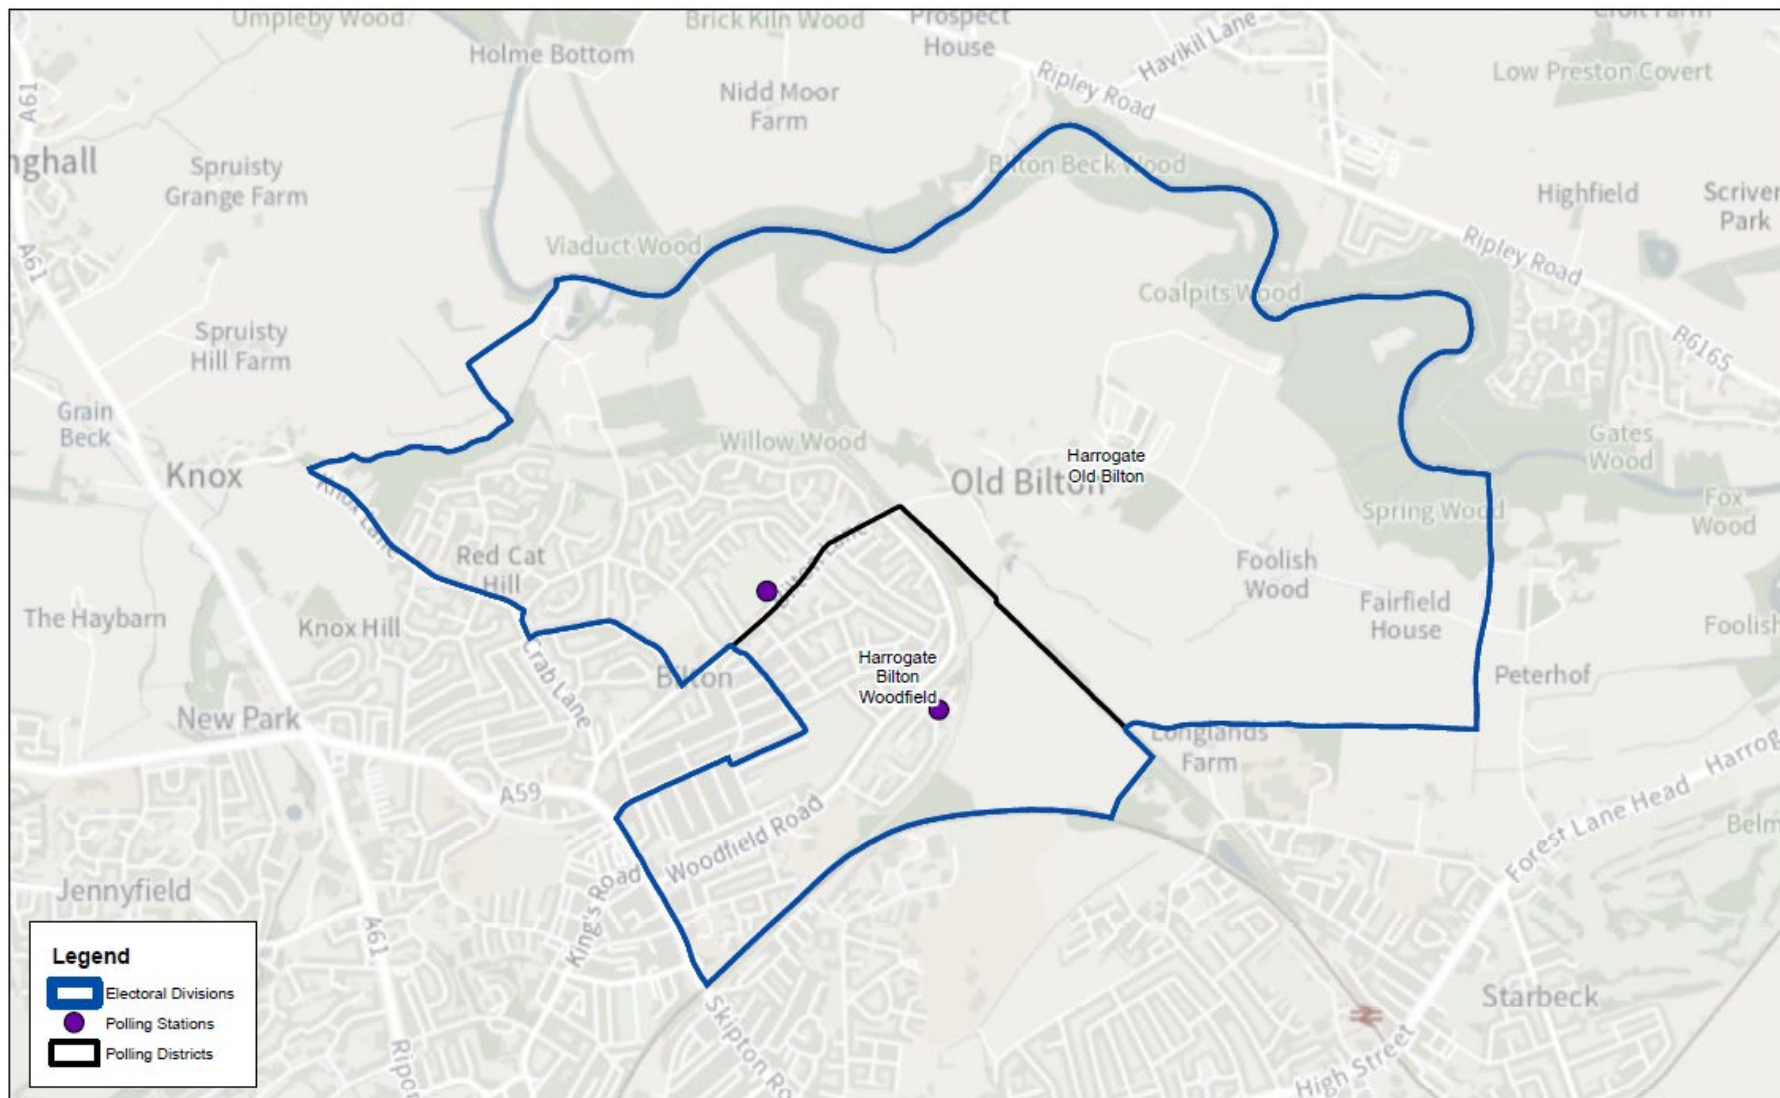

The initial proposals within this document will be consulted on, and comments received will be considered, before final recommendations are made. This process will lead to the publishing of the revised Register of Electors planned for 01 December 2024.
