

PROPOSED AMENDMENT TO WAITING RESTRICTIONS

B6271 BOLTON ROAD - SCORTON

STATEMENT OF THE COUNCIL'S REASONS FOR PROPOSING TO MAKE THE ORDER

LEGAL POWERS AND DUTIES

Under Section 1(1) of the Road Traffic Regulation Act 1984 the Council, as traffic authority for North Yorkshire, has powers to make a Traffic Regulation Order (TRO) where it appears expedient to make it on one or more of the following grounds:-

- (a) for avoiding danger to persons or other traffic using the road or any other road or for preventing the likelihood of any such danger arising, or
- (b) for preventing damage to the road or to any building on or near the road, or
- (c) for facilitating the passage on the road or any other road of any class of traffic (including pedestrians), or
- (d) for preventing the use of the road by vehicular traffic of a kind which, or its use by vehicular traffic in a manner which, is unsuitable having regard to the existing character of the road or adjoining property, or
- (e) (without prejudice to the generality of paragraph (d) above) for preserving the character of the road in a case where it is specially suitable for use by persons on horseback or on foot, or
- (f) for preserving or improving the amenities of the area through which the road runs; or
- (g) for any of the purposes specified in paragraphs (a) to (c) of subsection (1) of Section 87 of the Environment Act 1995 (air quality).

Section 122(1) of the Road Traffic Regulation Act 1984 also provides that it shall be the duty of every local authority upon whom functions are conferred by or under the 1984 Act so to exercise those functions as to secure the expeditious, convenient and safe movement of vehicular and other traffic (including pedestrians) and the provision of suitable and adequate parking facilities on and off the highway.

REASONS FOR MAKING THE ORDER

The Council considers that it is expedient to make this TRO on grounds (d) and (f) above, having taken into account its duty under Section 122(1) of the 1984 Act, for the following reasons:-

Location of Proposed Order

The proposal seeks to introduce a maximum period of waiting for a vehicle in the layby adjacent to the primary school at the location in question. This is in order to discourage long term parking and free the use of the layby for use by those dropping off or picking up children at the school which is what it is understood that the layby was originally provided for.

The restriction will apply between 8:00 am - 9:00 am and between 3:00 pm - 4:00 pm from Monday to Friday (inc) with no return permitted within 30 minutes. It is anticipated that by freeing up space in the layby this will serve to reduce the amount of on-street parking presently taking place nearby with some vehicles being left partly on the adjacent footway.

The proposal is as illustrated on Plan A1.836 (b)

Project Engineer - Ian Beighton - Area 1 Highways, Brompton On Swale

CONSIDERATION OF OBJECTIONS

Under the Council's Constitution, the consideration of objections to a proposed TRO is delegated to the Corporate Director – Environment Directorate, in consultation with the Environment Directorate Executive Members. For each TRO where there are objections, it will be necessary to bring a report to the Corporate Director – Environment Directorate and the Environment Directorate Executive Members seeking a decision on the consideration of the objections. The report will include the views of the relevant local member who will also be invited to the meeting that considers the report. The Corporate Director – Environment Directorate may wish to refer the matter to the Council's Executive for a final decision.

A report to the relevant Area Committee will only be necessary when there are objections to a wide area impact TRO.

A wide area impact TRO is defined as a proposal satisfying all of the three criteria set out below:

- The proposal affects more than one street or road and,
- The proposal affects more than one community and,
- The proposal is located within the ward of more than one Councillor

The report will seek the views of the Area Committee and these views will then be included in a report to the Corporate Director – Environment Directorate and the Environment Directorate Executive Members seeking a decision on the consideration of the objections. The Corporate Director – Environment Director may wish to refer the matter to the Executive for a final decision.

The existing arrangements for members of the public wishing to attend or speak at committee meetings will apply and it may be appropriate for the Corporate Director – Environment Directorate to have his decision making meetings open to the public, so that the public and in particular those with objections, have the opportunity to put their views across directly.

N.B. The Corporate Director – Environment Director has delegated powers to make decisions on TROs where there are no objections.
