Polling District & Polling Places Review

Background

Within each local authority area, legislation requires councils to carry out reviews of the Polling Districts and Polling Places in that area.

The North Yorkshire Council area is divided into polling districts, with one or more polling districts making up a division, and with a polling place being an area or building within a polling district in which a polling station is situated.

The last full statutory review was held in 2023 and was the first for North Yorkshire Council area. The Electoral Registration & Administration Act 2013 governs the timings of compulsory reviews. The next compulsory review is due to commence in the 16 month period beginning on 1 October 2028. A council can conduct a review at any time, but it will still have to conduct a full review during the compulsory timeframe.

This is an interim review taking into consideration the Local Government Boundary Commission Review for England's (LGBCE) Boundary Review of North Yorkshire and Community Governance Reviews for a number of parishes undertaken in 2025/26. It is also reviewing the designated polling stations where the existing venue is no longer available or suitable to act as a polling station. This review effects all divisions of North Yorkshire Council (though some in only minor ways like changes to polling district codes).

This document has been distributed to local community groups, action groups, disability groups, charities, political parties, Division Councillors and Parish Councils. The (Acting) Returning Officer has also been consulted and has given his recommendations.

The initial proposals within this document will be consulted on, and comments received will be considered, before final recommendations are made. This process will lead to the publishing of the revised Register of Electors planned for 01 December 2026.

Where a polling place serves a large electorate, the Returning Officer will consider providing more than one polling station.

Once the recommendations arising from this review have been approved, the polling stations within the polling places listed will be booked for all elections held until the next statutory review. If a polling station is unavailable for a particular election, the most suitable alternative venue will be used on a temporary basis. Should it be proposed to make any such change permanent, a further polling district and polling place review will be carried out.

Within this document the beginning of each proposed Polling District represents the constituency it falls within:

HK = Harrogate & Knaresborough
RN = Richmond & Northallerton
SR = Skipton & Ripon
SW = Scarborough & Whitby
SE = Selby
TM = Thirsk & Malton
WE = Wetherby & Easingwold

Initial Recommendations: Including (Acting) Returning Officer's Proposals
