

Current Vehicle Category February 2020 Key

Vehicle Category	Description
A	These vehicles are over 22 seats and currently not accessible but are eligible for a temporary government exemption from PSVAR up to December 2021 (with a possible extension to December 2023). It is proposed that spare seats be made available on these services for a charge whilst the government exemptions apply. After this time it is proposed that spare seats are not made available unless the vehicle has been replaced by one that is accessible or exempt.
B	These vehicles are over 22 seats and currently not accessible, and are not currently eligible for a temporary government exemption from PSVAR. We are not able to charge for spare seats on these services until the vehicle becomes eligible for a government exemption, or is replaced by an accessible vehicle. It is proposed that existing pupils with scholar travel permits using spare seats on these services are able to travel for free up until July 2021, but charges may be introduced if the vehicle becomes exempt or accessible before this date.
	All other vehicles either: i) carry a mix of entitled and non-entitled/post 16 pupils and are accessible or exempt from PSVAR. It is proposed that spare seats be made available on these services for a charge, or ii) carry only entitled pupils.
