Prevention Service

The Prevention Service brings together a range of preventative work previously undertaken by separate services. The single service:

- operates seamlessly throughout the 0-19 age range;
- eliminates duplication, unnecessary and unhelpful transitions for families;
- has a new way to provide services, including a greater capacity to provide early help in a more targeted way for children, young people and families; and
- is co-located with the Healthy Child Teams (0-19).

Our vision is that "families in North Yorkshire are able to access readily a range of support to ensure that their children are safe, happy and well, and that they can flourish at school and in the wider world".

Other Information

Volunteering	We need your help. Every Centre needs an extra pair of hands on occasions. We need volunteers to help with a lot of what we do, ranging from just an hour of help on one occasion, to parents providing support for regular sessions. We would be delighted to hear from you if you could help in any way.
Family Outreach Workers	Family Outreach Workers can help individual parents with parenting issues. If you have a challenge you are struggling to overcome please contact us at one of our Centres. This is a confidential service and there are a range of parenting courses you may be able to access.
