

Harrogate Adult Social Care Profile 2019

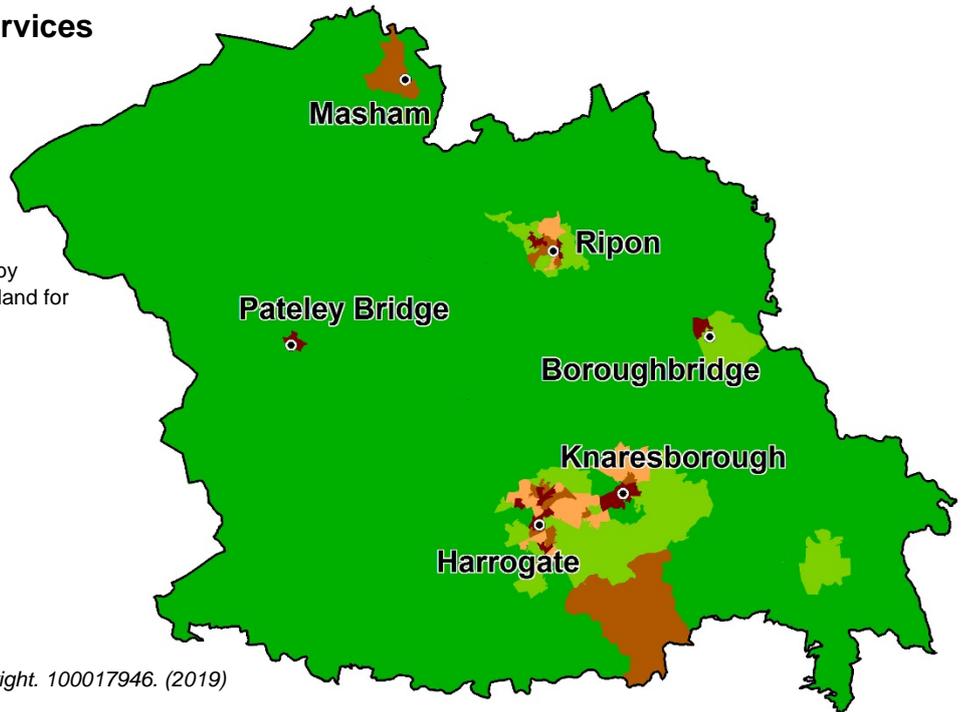

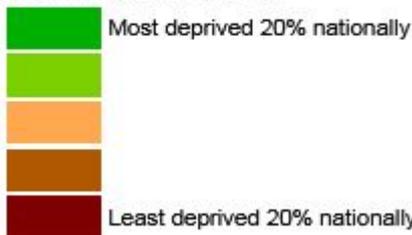

Population

Geographical Barriers to Services

Part of the Indices of Deprivation 2015, the Geographical Barriers to Service sub-domain ranks all Lower Super Output Areas (LSOAs) in England in terms of road distances to services including a GP surgery, supermarket or convenience store, primary school and post office.

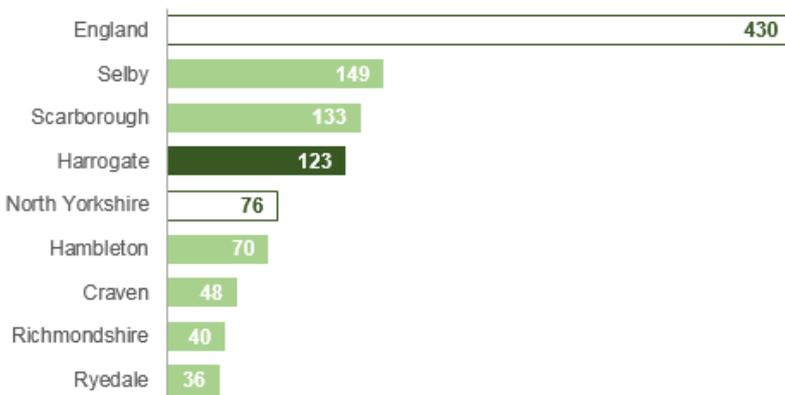

Large areas of North Yorkshire are covered by LSOAs within the most deprived 20% in England for this measure.

Population density (people per sq km, ONS MYE 2018)

- Population density is higher than the North Yorkshire average but considerably lower than that of England overall.
- Harrogate is the largest town in the county. Ripon, Knaresborough and Boroughbridge are also substantial urban settlements. Outside of these much of the district is covered by areas which fall within the 20% most deprived neighbourhoods (LSOAs) in England in terms of Geographical Barriers to Services. 32.6% of the population live in these very rural areas.
- 18.9% of the LSOAs in the district are within the 10% most deprived in North Yorkshire for this indicator.

- 23.1% of the population are aged 65+, lower than the North Yorkshire average (24.2%) but higher than the national average (18.2%).
- This is expected to increase to 32.6% by 2035, bringing the district into line with the county average for the proportion of people aged 65+.

Health

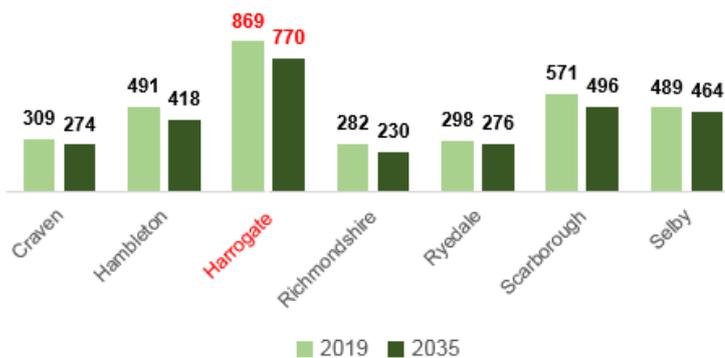

- 493 people aged 18-64 are thought to have a moderate or severe learning disability in 2017.
- This is expected to fall to 441 by 2035.
- For those aged 65+ the number is expected to increase from 105 to 142 people over the same period.
- These figures are based on national rates applied to the population of the district.
- 381 people have an open service with a Primary Support Reason (PSR) of Learning Disability (Q1 2019/20).

People aged 65+ predicted to have a moderate or severe learning disability in 2019 and in 2035

Source: POPPI & PANSI

Population aged 18-64 predicted to have a serious personal care disability

- 869 people aged 18-64 had a serious personal care disability in 2019. This is predicted to reduce to 770 people by 2035.
- These figures are based on national rates from PANSI which have been applied to the population of the district.
- 979 clients have a PSR of either physical or sensory support (Q1 2019/20).
- Of those, 749 are for Personal Care. A further 138 are for Access and Mobility Only and an additional 47 are for Sensory Support.

- 76.5% of dementia cases are estimated to have been diagnosed (PHE, 2018) - the highest rate of diagnosis in North Yorkshire and considerably higher than the national average (67.5).
- The number of people aged 65+ with dementia is expected to increase from 2,812 in 2019 to 4,465 by 2035 (POPPI).
- 307 clients have a recorded health condition of dementia, 260 of which are in permanent placements as at Q1 2019/20 (LLA).
- 41 providers are currently approved to provide dementia care across the Harrogate and Craven locality (Q1 2019/20).

Dementia diagnosis rate, 2018 (% of estimated cases)

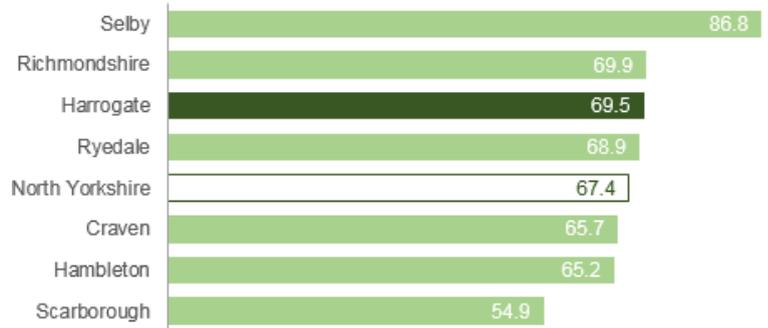

Public Health England Profile - key issues for adult social care

- 211.6 people per 100,000 population had hospital stays for self-harm in 2016/17, significantly higher than the national rate (185.3).
- 1,111 people per 100,000 population had alcohol-related harm hospital stays 2016/17, significantly higher than the national rate (695.6).
- For more details see the [Harrogate Health Profile 2018](#) from Public Health England.

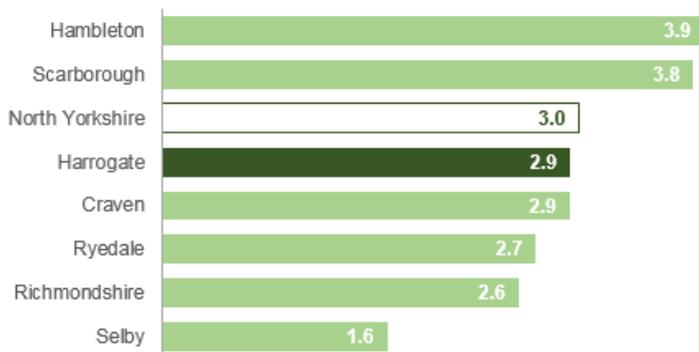

Provision

- There are 50 residential homes (963 beds) and 21 nursing homes (1,268 bed) across Harrogate district (Q4 2018/19).
- Across the Harrogate and Craven locality residential homes have an occupancy rate of 96% (39 vacancies) while nursing homes have an occupancy rate of 96% (64 vacancies) in Q4 2018/19.
- The number of people aged 65+ living in a care home with or without nursing is projected to increase from 1,637 in 2019 to 2,775 by 2035, a 69.5% increase (POPPI), higher than the county average (67.4%).

Predicted % increase 2019-35 in people aged 65+ living in a care home with or without nursing (POPPI)

Rate of hospital discharges into care per 1,000 adults (July 2018 - June 2019)

- 2.9 people per 1,000 adults were discharged from hospital into care in the twelve months to June 2019.
- This equates to 376 clients, the largest number in North Yorkshire.
- This is lower than the North Yorkshire average of 3.0 per 1,000 adults.

- 71 approved residential and nursing care providers operate within the Harrogate and Craven locality.
- 74.7% of those providers who have received a CQC rating were rated good or outstanding in Q1 2019/20.
- This is lower than the North Yorkshire average (76.4%).

% Residential & nursing locations rated Good or Outstanding (Q1 2019)

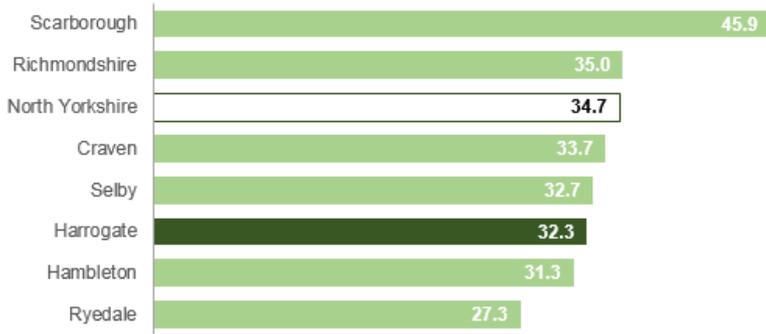

% Domiciliary care providers rated Good or Outstanding (Q1 2019)

- 26 approved domiciliary care providers operate with Harrogate district.
- 80.8% of those providers who have received a CQC rating were rated good or outstanding in Q1 2019/20. This is lower than the North Yorkshire average (83.0%).

Services

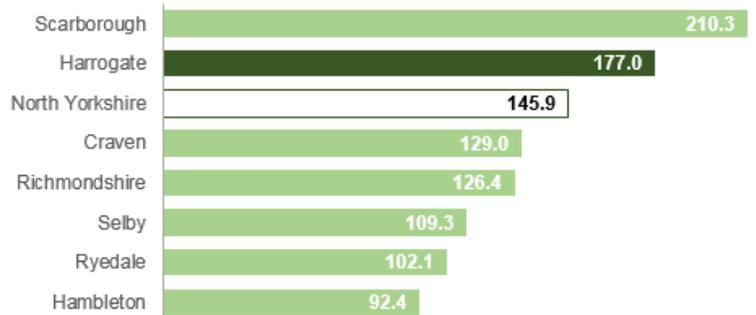

Open weekly services per 1,000 pop aged 65+ (Q1 2019)

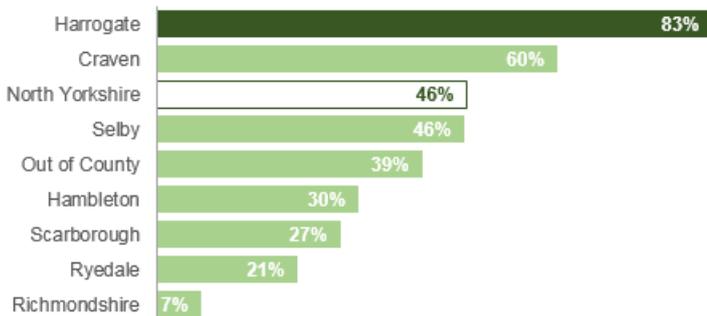

- 32.3 people per 1,000 aged 65+ receive a service in Q1 2019/20, the third highest rate in the county.
- This equates to 1,198 people accessing care.
- The rate increases to 53.5 at age 75+ and to 102.0 at age 85+. The rate at 85+ is the lowest in the county.
- There are 41.8 domiciliary care cases per 10,000 adults, the lowest rate in the county and considerably lower than the North Yorkshire average of 52.5.
- 6 domiciliary care packages are unsourced across the Craven and Harrogate locality, from a total of 22 across the county in Q4 2018/19.

- 177.0 people per 1,000 are in residential or nursing care placements.
- This is the second highest rate in North Yorkshire and considerably above the county average (145.94).
- Clients with a PSR of 'Physical Support' make up 56.1% of those in residential & nursing placements, lower than the county average (59.7%).
- 0.9% of residential & nursing clients have a PSR of 'social support', below the county average of 1.8%.

Persons per 1,000 aged 65+ in residential & nursing care (Q1 2019)

Residential & nursing placements above NYCC rate for ages 65+ (Q1 2019)

- 83% of residential & nursing places for ages 65+ are above NYCC rates, the highest level in the county and substantially higher than the county average (46%).
- 24% of residential placements are in excess of £1K, considerably higher than the county average (17%).
- 44% of nursing placements are in excess of £1K, the highest proportion in North Yorkshire by some margin. The average across the county is 17% (Q1 2019/20, LLA).
- The average age at placement is 83.7, lower than the average for North Yorkshire (82.4).
- The average duration of residential / nursing services is 2.6 years during Q1 2019/20. This is in line with the county average.
