Women's Race: <https://letour.yorkshire.com/tour-de-yorkshire-2019/womens-race/stage-2/map/>

Stage 4 - Sunday 5th May 2019

Starting in Halifax and ends in Leeds, covering 182km, with 130km (71 per cent) in North Yorkshire. The route takes in Sutton-in-Craven, Crosshills, Skipton, Embsay, Burnsall, Threshfield, Kilnsey, Kettlewell (including Park Rash), Middleham, Masham, Grewelthorpe, Kirkby Malzeard, Pateley Bridge, Greenhow Hill, Blubberhouses and Askwith Moor.

Men's Race: <https://letour.yorkshire.com/tour-de-yorkshire-2019/mens-race/stage-4/map/>

As with the previous Tour de Yorkshire races, there will be rolling road closures each day along the race route. These road closures will generally last no more than an hour, apart from the start/finish areas and some of the climbs, in which longer road closures will be required.

Please see the Council's website <https://www.northyorks.gov.uk/tour-de-yorkshire> which provides timings and updates of all road closures leading up to the race.

North Yorkshire County Council will be contacting care providers during April to discuss what contingency plans they have put in place, to account for any potential difficulties they may face when moving around the areas that the race is passing through.

If on reviewing the detailed timings, a provider identifies any services that will be affected by the race, they can contact the Council via socialservices.contractingunit@northyorks.gov.uk for advice.

Further information is available on the official Tour de Yorkshire website <http://letour.yorkshire.com/> and there is a section of the North Yorkshire County Council website dedicated to the race at www.northyorks.gov.uk/tour.

The Council will be sending people in receipt of services within the affected areas the attached correspondence. It is recommended that you familiarise yourself with its contents and commence discussions with people receiving services from you regarding preparations for the race.
