 3.8 miles in total

Everyone loves nature, but most of us are just too busy to take the time to notice what is around us.

DISCOVERY TIP

You can use a smart phone with a camera to take photos of your discoveries. If you have no camera, then just use a pencil and a notebook, or try doing quick sketches of what you see.

Always follow the countryside code. Be safe – plan ahead and follow the signs. Keep dogs under close control, protect plants and animals and take your litter home. Leave gates and property as you find them and consider other people.

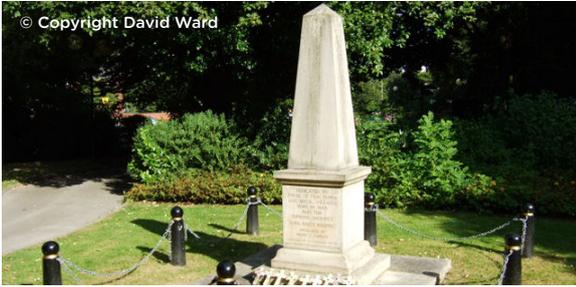

Short on time?

Why not mix and match the discoveries on this trail to create a shorter walk that fits around your schedule!

Fairy Pin Well

Brayton Barff Woods was once the sight of 'Our Lady's Well' until it was filled and covered when the reservoir was extended in the 1960s. However, the magic surrounding the well still exists today.

According to local folklore, Brayton Barff was home to 'Faerie folk' who would unsuccessfully hunt with bows and arrows made from the pointed spikes of the Hawthorn Tree.

However, the faeries noticed women passing through the woods carrying fashionable metal pins in their hair and clothes, that would be perfect for hunting. The faeries came up with a cunning plan to acquire these metal pins and began to offer the women a trade. For every woman who dropped their metal pin in the well, the faeries would show their true love's face in the waters of the well.
