Please be as precise as possible. If you wish to support the legal compliance or soundness of the Local Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

The MWJP response does not cover our point - it refers to lack of flexibility. We believe that 8 weeks of excessive noise in any 12 month period has all the flexibility to be less.

Our reason for believing it is unsound is it is not consistent with the sustainability approach of the NPPF. i. It has a large social impact and potentially a large environmental impact.

(continue on a separate sheet/expand

box if necessary)

4. Please set out what modification(s) you consider necessary to make the Minerals and Waste Joint Plan legally compliant or sound, having regard to the Matter you have identified at 3. above where this relates to soundness. (NB Please note that any non-

compliance with the duty to cooperate is incapable of modification at examination). You will need to say why this modification will make the Minerals and Waste Joint Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Periods of excessive noise due to drilling, hydraulic fracturing and other related activities must be limited to 8 weeks in a 12 month period.

Please note your representation should cover succinctly all the information, evidence and supporting information necessary to support/justify the representation and the suggested modification, as there will not normally be a subsequent opportunity to make further representations based on the original representation at publication stage. **After this stage further submissions will be only at the request of the Inspector, based on matters and issues he/she identifies for examination.**

5. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination?

Yes, I wish to participate at the oral examination

6. If you wish to participate at the oral part of the examination, please outline why you consider this to be necessary:

As the response does not answer our point we feel there needs to be discussion at the EiP.

Please note the Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate at the oral part of the examination.

All responses received will be considered and any information provided will be made public. My consent is hereby confirmed.
