MINERALS AND WASTE JOINT PLAN - Respondent 4072

Dear Ms Ord,

I am making a submission under the Examination process that you are conducting with respect to the Minerals and Waste Joint Plan. I submitted 4 objections to the original plan on the grounds that it is unsound in the following respects:

1. Need for an environmental financial guarantee - 4072/0004/M18/U
2. Need to extend consultation area buffer zone - 4072/0005/M16/U
3. Precautionary principle not mentioned in the plan - 4072/0006/M18/U
4. Ground Water Directive not mentioned in the plan - 4072/0008/9.069/U

I did not receive a response to any of my objections. As I understand it, as the plan has moved to the examination phase, the only objections that can be made is whether it is unsound on the basis of the four soundness criteria mentioned in Briefing Note from the Inspector.

I request that my 4 objections are examined by you on the basis that the plan is unsound as it is not consistent with national policy with respect to the 4 areas noted above.

As two of the objections are specifically referred to in the MIQs document - namely Question 60 (buffer zone of 3.5km) and Question 62 (financial guarantee) - I would like to request attendance at the hearing on 20th March 2018.

Sincerely yours,

Ocean Melchizedek
