Result: Site does not perform to an adequate standard in the Sustainability Analysis, and the site is not deemed sustainable in order to enter the **Pool of Sites**. [Describe main constraints]

Examples:

The site presents an inadequate road access, which is a determining impediment to selection.

The site has the majority of its area under Flood Zone Risk 2 and 3, which is a determining impediment to selection.

The site has numerous negatives, which outnumber the positives for the site.

Or

Result: Although the site performs to an adequate standard in the Sustainability Analysis, the site is not deemed suitable to enter the **Pool of Sites** because the ELR recommends that this site should be considered for employment.
