Dear Spatial Planning Team

I would like to comment on Bradley Village Neighbourhood Plan.

On page 46 Village Inset Map, the field off College Road between Primrose Hill and the listed properties off College Road to the north of Primrose Hill, and the adjoining field behind St Mary's church are no longer identified as local green space. In previous plans they have been identified as local green space. I urge you to check this has not been an oversight. If it is intentional, I would ask you to reconsider. These fields maintain the character of the area in that part of the village and the setting of listed properties, and should be maintained. In addition these fields are within the conversation area and should be retained adding to the conservation area benefits. Identifying these fields as local green space within the plan recognises the history of the village and the importance of crofts and the farming heritage.

Kind regards
